THE AFRICAN REPOSITORY,

AND

COLONIAL JOURNAL.

Published semi-monthly, at \$1.50 in advance, when sent by mail, or \$2.00 if not paid till after the expiration of six months, or when delivered to subscribers in cities.

Vol. XVIII WASHINGTON, NOVEMBER 1, 1841. [No. 21.

FOR THE AFRICAN REPOSITORY.

The following piece, in the hand-writing of a lady, now deceased, who has, with a good deal of justice, been called "the Hannah More of America," is the more worthy of publication, as she had probably prepared it not long before her last illness, and because it comes from a section of the country where the great mass are opposed to Colonization:

"I mentioned, sir, in a former letter, that trade and commerce were some of the means of God's appointment to civilize and evangelize nations, for they not only carry the means of civilization from place to place, but it carries the information with the means. I find in my conversations with free colored people about colonizing in Africa, or civilizing their own countrymen, that most of their prejudices grow up to their present formidable height, from ignorance of their country and the nature of the Colonization Society. I met with a colored man some few years since who went from New York as coachman to a gentleman and family who were visiting the South. The gentleman took sick and died, and his man was left to look out for himself. He spent some years at the South, in different places, of all which he gave a good account, and also of his countrymen both free and bond. At length he got sick, and when I saw him he was making his way back to New York as he could. I perceived him to be an understanding man, and asked him what he thought of the African Colonization Society. "I never heard of such a thing," was his reply. I then told him there was such a Society, and how and when it commenced, and what had been done, and how it had been put down by abolitionists calling it the "grave yard of Liberia." He seemed in perfect extacy, that such provision had been made for the colored people. "Why," says he, clasping his hands, "if I could once set my foot on the land of my fathers, (for he was a free born American,) I would go, if I knew I should die the next hour. But I never heard of such a thing." This man, sir, must have had the means of knowledge as much as most free colored people; and those that I have conversed with from that time to this, are about as wise on the subject as this man was. If they ever heard of such a thing, it was in such black shades that they might as well not have heard at all, so far as any benefit could be derived. But they can, any of them, tell you the whole story of oppression, abolition, and the grave yard of Liberia.

"The mechanic arts, is another very powerful instrument in the hand of Him who holdeth the ocean in its bounds, and directeth the storm. It

21

may, sir, be a little out of your line of business to know how much labor and expense has been put in requisition to send the Bible into Arabia, all to little or no purpose. But you have seen, I suppose, that one of Coll's patent rifles, has brought an Arabian ship to our very doors to supplicate "I have," says God, "created the smith that bloweth the coals and bringeth forth an instrument." This very instrument, sir, has been the means made use of to carry the Word of Life, liberty and peace, to the Imaum of Muscat, (which probably it would have cost a man his life to have offered ten years ago,) and through him to that long lost people, whose hand for ages "has been against every man's, and every man's hand against him;" and not only the Word of Life, but trade, commerce and the mechanic arts, all means of God's appointment to civilize and evangelize nations. Under such circumstances, let no one despair of Africa; but introduce through the Colonization Society our useful manufactured articles, and we shall soon see a polished and civilized nation. Neither agriculture, commerce, nor any business whatever in which man engages, can be carried on to any advantage, without great help from the mechanic arts. Experience has taught that lesson to this nation most fully, and we know in olden time, when one nation wished to oppress and destroy another, their first attempt was to remove the mechanic arts. Make it then your first business to supply the Colony with every necessary implement of husbandry, in exchange for the produce of their fields; keep a full supply in your warehouses. Their own fancy will furnish "ribbons, gloves and rings," without our aid. Nothing should be wanting to encourage industry and usefulness, with temperance in all things. But what you will find most important is, see that every man, woman and child, has the Bible put into their hands as soon as they can read it. There they will find the only law and the only precepts, which ever have, or ever can govern mankind. Take this away, and the sword will soon be in full requisition, no matter what is the color of the skin or climate they inhabit."

The above I take from a great mass of manuscript left by my deceased friend, on the origin, history, present condition and future prospects of the African race; in which she has advocated the plan of Colonization which the American Colonization Society are now endeavoring to carry out. She has evidently written much which has been published, but where, even her bosom friend does not know. With ample means of support, and although surrounded by a large circle of highly valued friends, yet she spent years in her study, writing for the benefit of persons in every walk of life, and especially for the poor down trodden African. Among her writings, which are evidently the most of them the first drafts of what she sent abroad, is found essays on politics, political economy, history, religion, schools, advice to young ministers, school teachers, &c., &c.

Yours, &c.

ANOTHER SEIZURE.—Letters were received in this city on Friday, from the American Consul at St. Helena, which stated that the brig Cipher late of this port, had been seized by the British on the coast of Africa. The Cipher left Salem in command of Capt. Dayley. She was sold at Cabena, Africa, to the Portuguese, for the sum of \$7,500, and on the 11th of July was taken possession of by the British brig Persiani on charges of being intended and fitted up for the slave trade. Suits were instituted and the brig was condemned to a Court of Admirality.—Salem Register.

INTERESTING FROM LIBERIA.

THE Hon. SAML. BENEDICT, the author of the communication from which the following extracts are taken, a man of color, resided in the State of Georgia, and emigrated to Liberia in July, in 1835, with an expedition sent out from Savannah by the New York Colonization Society. Since that time he has occupied stations of the first responsibility and honor in Monrovia; was a member of the Legislature which formed their civil constitution, and was also appointed Judge of the Superior Court. About the month of June last, Mr Benedict returned to the United States, partly on commercial business, and also to visit his native country. As his attention during the summer has been much occupied with his personal concerns, and I had little opportunity of private conversation with him, I requested him to furnish me in writing an impartial account of Liberia, with the present condition of our Colonies, and their future prospects. In compliance with this request, Mr Benedict, a few days previous to his departure, left the subjoined communication, which I now submit to the consideration of an enlightened benevolent public.

> ALEXANDER PROUDFIT, Cor. Sec. N. Y. Colonization Society.

COLONIZATION ROOMS, Oct. 12, 1841.

NEW YORK, SEPT. 14th, 1841.

REVEREND DOCTOR PROUDFIT :-

RESPECTED SIR,—In relation to the prospect of the Colony of Liberia, as we had not sufficient time to converse fully on this subject, I now embrace a few moments to write, but presuming that you will give publicity to my statements, I write more fully than I intended at first, hoping it may

have a salutary effect.

Sir, my candid opinion of this Colony is, that with proper management, it will become one of the first countries on the globe. I went there in 1835, under those impressions, and now after a lapse of more than six years, I feel more confirmed in my mind that Liberia with all the disadvantages which it must encounter, in common with other new settled countries, suits me best, and not only myself and family, but you would insult almost any Liberian in good standing in the community, if you only mention to them that they ought to return to live in the United States. No sir, the man of dignified feeling enjoying full liberty, with the concomitant advantages which we have in Liberia' would spurn at the idea of returning to live in America, even if we were permitted to occupy some of your most splended mansions, together with the luxuries of your finest cities. With these considerations, we are thankful to our benefactors for procuring a country for us where we are men, and as for Liberia, I see not what is to hinder us from living there, for in that country which we can with propriety call our own, we enjoy all the blessing of life. The soil is generally good, producing almost everything that grows in tropical countries; rice is raised in abundance, and having latterly paid more attention to that object, we will in a few years be amply supplied; our woods abound with deer and another game, our sea and rivers also abound with excellent fish; we often stand in our streets or dwellings and see the whales spouting in the sea; mackerel are often caught in our harbor fully two feet in length; we have also abundant growth of the palm tree, the oil of which has contributed a fruitful part of the revenue of Great Britain and your own country; the lands are well timbered, some of which are as durable as any in the world, particularly so for ship building; we have abundance of rock and stone for building, and although we have not yet discovered stone for making lime,

we have an abundance of oyster shells from which we make our lime. Our forest produces the richest and highest priced dye-wood of any known part of the world, and as agriculture, that surest source of wealth and plenty, which I am sorry to say has heretofore been too much neglected among us, has been lately better attended, to we therefore feel more encouraged to go

forward. Our Government is intended to be a republic, and although there is too much power in the hands of the Governor, still the remedy is in our own hands, and we feel sanguine that before long we will be rid of every arbitrary feature; we will then enjoy a purer form of government than any now to be found, even that of the United States. The natives around us, who are our principal laborers, work freely for those who pay them fairly, and treat them with kindness; they are learning gradually the arts of civilized life. But above all, what can be more cheering to the heart of the Christian, and philanthropist, than to witness these long benighted aboriginees of Africa, forsaking their idols and embracing the blessed Gospel of Jesus; many of whom I have heard preaching and exhorting their friends and neighbors to unite with them in the participation of the blessings of our holy religion as set forth in the Bible. Since witnessing the above, I feel more satisfied than ever with the choice I have made in going over to assist in settling this new country, which, if properly managed, will not only prove a blessing to the natives and ourselves, but will raise the names of its friends on the highest temple of fame. Liberia is greatly indebted to those excellent missionaries of the cross, who have forsaken their native land with all its elegances, some of whom had lived at ease, surrounded by friends and relatives at home, who had entreated them with tears not to embark in this dangerous enterprize, but at the call of their dear Lord, they took their lives in their hands, and entered fearlessly this vast field of love and duty. Many of whom had no sooner entered the field than they were cut off by death, yet their places have ever been filled up by others, and I firmly believe that the cause is approbated by the Lord, and will therefore go on in spite of all opposition. Our churches in Liberia are very flourishing, numbering at least two-thirds of the adult population; the vices of large cities have not as yet got much among us, and we hope never will. As to the health of Liberia, I think it will fully compete with the most of the southern States of America. On first going out to any country, persons must expect more or less to be sick during their acclimation; this is the case in Liberia; and although we are often constrained to mourn over departed friends, yet we are not discouraged, knowing that death is the lot of mortals and visits every clime. However, we feel satisfied that when we have the low lands around our settlements properly cleared and drained, that it will add at least twenty-five per cent. to our health, as in most every other part of the world; for example, read the history of the first settlements in the now United States; and even if it never be healthier, the settlement of colonies will go on, knowing it at present to be the only feasible plan that human wisdom can devise, for civilizing and christianizing Africa, and ameliorating the condition of the unfortunate man of color.

Since my visit to the United States, I have been astonished and amused to see men, who, in every other respect seem intelligent, yet so very ignorant, or pretend to be, about Liberia; many of whom seem to be under the impression that at almost every step we take, we are in danger of treading on serpents, and that we are almost eaten up by musquetoes and flies. Now sir, as for snakes, I have seen more in one week in Georgia and South Carolina, than I have seen in six years in Liberia. As for wood flies we have far less than in the southern parts of the U. States, and as for

the house flies we have none, and fewer musquetoes than in America. Many again imagine that we are nearly scorched to death by the rays of the sun, and will hardly believe when we tell them otherwise, and that our thermometer varies only from 65 to 88 in the extreme, that is, in the shade. Some suppose that because our year is divided into the dry and rainy seasons, that during the rain we never have fair weather, and that during the dry we never have a shower; how mistaken or preposterous are such notions! Again, I have been told that the laws of Liberia prevented citizens from leaving the Colony, but on condition of returning. This is not true, for no citizen is ever prevented, if he but procure a passport, unless he is in debt and his creditor stops him until he gives security to the amount.

I have written much more than I expected when I first took up my pen, but thought proper that these facts should be made known, for I dislike to hear such gross misrepresentation; we would desire our beloved brethren to go over and share with us the blessing of genuine freedom; we are not anxious to see any embark for Liberia but volunteers; such as have fully made up their minds for better or for worse to cast in their lots with us; no other will be contented, but will be always desiring to get back again into Egypt.

I heartily desire to leave these words as a legacy to my family and relations, never, never, to think of returning to live in the United States.

I have the honor to be, Rev. Sir,
Your grateful servant,
S. BENEDICT.

COLONIZATION.

THE problem which remained doubtful for some time whether a Colony could be established, whose capacity would enable it to receive any large portion of the black population of this country, is solved. Such a Colony is established; and in its commerce, general prosperity, order and good government, challanges the history of all preceding ages for a parallel. In the providence of God, all great undertakings, materially affecting the condition of nations, have been beset with difficulties and embarrassment the timid and irresolute have been alarmed; and they have hankered "after the flesh pots of Egypt," and those possessed of the most ardent faith have at times doubted, whether they should pass over Jordan. It is beyond our comprehension, that MILLS, ASHMUN, and others, who have fallen martyrs to the cause of Colonization, should have been removed from their spheres of usefulness, when so much apparently depended upon them: but who shall instruct God in wisdon, or dictate to him in accomplishing his designs or set bounds to his power! An attentive pursual of the bondage and liberation of the children of Israel, would edify, and greatly instruct any one, inclined to oppose the restoration of the blacks to their country.

We have all marvelled again and again, that this chosen people should have been doomed to waste forty years of their lives, in traversing a wilderness before they were permitted to enter into the land of promise; and we have heaved a sigh of regret, that neither AARON nor Moses, was permitted, after so much labor, toil and hardship, after having borne with patience the murmuring of their brethren—to enter the confines of the inheritance of their nations.

In the great work of restoring the descendants of Ham to the land of their fathers, and in civilizing and christianizine one entire quarter of the globe, the United States have been selected as the

Granville Sharp, took an active part in colonizing Africa as early as 1783; and he "may be regarded as the founder of Sierra Leone." Although this settlement has been under the fostering care of the British African Institution, it has accomplished but little in civilizing the natives. The American Colonization Society, has accomplished more in the period of ten years, to remove the gloom of night from Africa, than has been achieved by all the European powers. I am addressing a christian audience, who believe the words of inspiration will be fulfilled. You entertain no doubt the time will arrive, (and you have thought you have seen the twilight of the glorious day,) when the heathen nations shall be converted and take a stand, among the civilized, and polished, and intelligent nations of the earth.—How is the blackness of darkness to be dispelled from Africa?— "which is still to us, what it was to the ancients thousands of years agothe land of mystery." Although "its coasts lie in sight of the most civilized countries in Europe, yet we know nothing more than its outlines; and into the interior, the foot of an European has lately for the first time penetrated." In the period of Egypt's greatest prosperity, deep night seems to have enveloped the surrounding countries. Subsequently, the Greeks and Romans, became better acquainted with the Mediterranean coast of Africa, and penetrated into the interior, perhaps as far as the river Joliba or the Niger; but their knowledge never reached beyond the confines of Numidia, and they were totally ignorant of the southern part of Africa. Its outlines were not determined until the 15th century."—Mungo PARK, a recent traveller, supposes the Joliba, or the Niger of Herodotus, to run from west to east; but where its waters were discharged into the sea, if they were discharged at all, remained a profound mystery, until it was. ascertained by the LANDERS in 1830, that they emptied into the Gulf of Guina. at the cape of Formoso.

Do any of you entertain the vain expectation, that the word of life will be disseminated through that vast continent, by Missionaries from Europe or America? How long have the heralds of salvation proclaimed the risen Saviour to the savages of our own country, and to the heathen nations of Asia? and how many trophies have they won? Suppose the Gospel had been conveyed by their own kindred, how different do you suppose would have been the result ?- Where will you find European or American Missionaries, in sufficient number to instruct 150,000,000 of barbarians; scattered over 12,256,000 square miles, stretching from 15 degrees of west, to the 51st of east longitude, and from the 34th degree of south to the 37th 30 , minutes of north latitude, in a region, a part of which, at least, they must encounter "the lifeless atmosphere of the tropics, where the heat of the sun is so terrible that eggs are roasted in the sand, and the naked feet of the negroes are blistered. Or do you suppose the whole economy of God is to be changed, and this great work is to be accomplished without the use of instruments? that he will say as he did at the creation, when "darkness was upon the face of the deep-let there be light?" What part of divine inspiration has taught you, that without the use of means, "the spirit of God will move" over Africa, as it "moved upon the face of the waters?" It is true we read, "nations shall be borne in a day," but we are informed also "the fallow ground" is to be prepared for the reception

It is computed that there are in Africa 150 languages spoken, of which 70 only are known to the civilized world. If you send civilization by Africans, not only as missionaries, but by the formation of colonies, you disarm jealously and discord, and you inspire that confidence which will alone the colony has already had the most

of the seed.

their children to the Colony, to be instructed in the schools, and to be taught the mechanical and agricultural arts. The negroes are a simple, honest, inoffensive, but timid people, without a single trait of the savage ferocity that distinguished the aborigines of this country. Their kindness and hospitality to the LANDERS, generally, would do honor to refined society.

327

I am incapable of drawing even a faint outline of what Africa will be in a century, if this plan of Colonization shall be prosecuted. It is in our power to repair, in a great measure at least, the injuries, that not only this country, but all other nations have inflicted on Africa. The United States was the first power that declared the slave trade piracy, and provided by law for the punishment of the offence by death. We have exhibited to the world how odious we consider this traffic, by declaring the perpetrators of it to be outlaws, and by subjecting them to the same punishment that is inflicted on the enemies of the human race.

Let us not stop here, but march on in the van of other nations in the great work of rescuing Africa from the deep night that has so long enveloped her in more than Egyptian darkness. "The valley of the Nile, was once the cradle of commerce, the arts and sciences; Syria, and Greece, and Italy, were indebted to Africa," for whatever of renown they possessed. Let this nation in the ardor of her youthful enterprises, restore to Africa

the arts and sciences, of which she has so long been bereft.

Do any of you doubt the practicability of civilizing Africa? Why is this more difficult than to civilize people in other quarters of the globe? The most enlightened, polished, intelligent, and refined portions of Europe, tradition and history inform us, were more savage and barbarous than Africa now is; and more can be achieved by the combined efforts of the people of the United States in a single year to reclaim Africa, than it was in the power of any nation eighteen centuries ago, to have performed in

the period of fifty years.

It has been said the condition of the blacks at the Colony, is more miserable than it was in this country. On this point I only ask you to examine the evidence, and decide the question as you would, if you were called upon to decide a contested question in the jury box, or to administer justice on the bench. Thus situated, you would examine the testimony with care, and if you found it conflicting, you would ascertain the number of witnesses called by each party, their means of having the facts about which they were called to give testimony; and you would become thoroughly acquainted with their characters, and the motives that might influence them

in perverting the truth.

Were I concerned for the Colony, I would present to you the testimony of Dr. Ayres, Mr. Ashmun, Dr. Randall, and Dr. Anderson, agents for the Society—who resided at Liberia, and must have been intimately acquainted with the condition of the inhabitants, and with their comforts or their wants. They died martyrs to the cause, and their testimony is consecrated by their dying declarations. Mr. Ashmun in the last supplication he audibly addressed to his Heavenly Father, a few hours before his death, while "the perspiration flowed from his pallid brow, and every feature expressed death," thus presented the Colony for the benediction of that Being into whose presence he was sensible his disembodied spirit would soon appear: "O bless the Colony, and the poor people among whom I have labored."—Address of Hon. E. Whittlesey.

THE Montreal Courier states that the number of runaway slaves from the southern States who have escaped into Canada, is about twenty thousand. It is said that an attempt has been made to induce them to emigrate to Jamaicz.

The writer of the following letter was a native of Accoo country. He was taken as a slave, carried to Sierra Leone, received an education so as to write, and became a member of the Church. He at length, with some others of his countrymen, returned to their country, Badagry, and now he writes to the Superintendent of Missions at Sierra Leone, to have the Gospel sent them and their countrymen.

BADAGRY, MARCH 2d, 1841.

To the Rev. Mr. Dove :--

REV. AND DEAR SIR,—It was my desire to write to you this day, hoping it may not offend you. By the providence of God, I was once brought to Africa where the sound of the Gospel is; and I have seen and taste the blessedness of Jesus, and know I asked permission by the name of the Queen to go to my native land; and it was granted, so I took a passage in the Queen Victoria, and by the goodness of the Lord I arrived there in safe, which I do think as I have already seen it, that the place is very good; no war is seen there, no nothing of such kind is there, so I humble beseech you, by the name of Jehovah, as to send one of the messengers of God to teach us more about the way of salvation, because I am now in a place of darkness, where no light is. I know that I was once under light, and now I am in darkness. It is to bring our fellow citizens in the way which is right, and to tell them the goodness of Jehovah, what he had done for us; and by so doing if the Lord will have mercy to brake that stony heart for them, that they may attend to the words which I have spoken to them; all will be right betwixt us and them, and I know better than them. It is my duty to put them to right, or the way which is right. But not to go and meddle with them in their evil ways, for if I do, the Lord will be angry with me, and therefore some of my family children which arrived in the brig Margarette wishes the children to be instructed So I humble beg of you that if you so good and kind and to pity on us, and send one of the servant of Christ to instruct us; by so doing if we ourselves will instructed I will try to speak to them the same as I have instructed, and by so doing the place will be the land of the Gospel.

Hoping you must not be afraid to send us any. If anything matter to him we will stand, we will take good care of him as our father and mother, hoping our few observations will find you and also your family in good of

life as it leave me at present.

Sir the Governor to Badagry his compliments to you, and he is very

glad to hear the word of God, he understand English well.

Yours humbly poor obedient Servant,

JAMES FERGUSSON,
And the governor of Badagry by the name of Warrovo.

DEATH OF SIR JOHN JEREMIE.—By the arrival of the "Gipsey," from Cape Mount, we are grieved to learn that His Excellency Sir John Jeremie, Governor General of the British possessions in West Africa, has deceased. We have not heard the particulars of this mournful event, but, from previous intelligence, there is no doubt it was caused by African fever, brought on by excessive exposure, in the discharge of his important and arduous duties.

It is but a few months since Sir John arrived at Sierra Leone, to enter upon the office of Governor, as successor to Colonel Doherty. His brief career in that office, has been one of great zeal and activity; and all classes under his authority, will doubtless mourn his early loss.

WASHINGTON CITY, NOVEMBER 1, 1841.

THE LATE EXPEDITION FOR LIBERIA.

The ship Saluda sailed from Norfolk, Virginia, for Monrovia, Liberia, on the 16th ult. Very contrary to all our expectations and preparations, she had on board only six emigrants. Of these four were from Washington, N. C., one from Augusta, Georgia, and one from Hartford, Conn. These few, however, are a host of themselves. They are enterprising, intelligent persons, who are actuated by the noblest motives, expecting not only to improve their own condition and augment their happiness, but also to accomplish much for the welfare of their "brethren and kindred according to the flesh."

As this is a much smaller number than we expected to send out at this time, our friends will like to know the reasons of the failure. We expected eighteen from Flemingsburg, Kentucky, who had the privilege of going to Liberia, left them by the will of their late master. But just as we expected them to start for Norfolk, a suit was instituted, which will detain them till it is decided.

We expected twenty from Richmond, Virginia, but these also were detained by new difficulties, springing up after the executor supposed the whole case settled. We also expected eight from Trenton, New Jersey, who were detained by an individual offering to send them to school for a year. One from Abingdon, Virginia, arrived at Richmond, and was there induced by the agent from Trinidad to change his course. He went to Baltimore expecting to get free passage to Trinidad, and, after his arrival, liberal wages. One from Louisville, was on his way, but did not arrive in time for the vessel. Some four or five others were expected, but we have not learned the reason of their non-appearance. We had made preparations for a large expedition—but circumstances which we could not anticipate, and over which we had no control, interrupted our plans; and that too at a time so near the ship's sailing, that we could not make any other arrangements.

The ship carried out a supply of goods for purchasing more territory and carrying on the operations of the Colony. She had also several passengers on board. The Rev. Mr. Sawver and lady, missionaries of the General Assembly's Board of Missions, destined to Settra Kroo. Mr. Sawver goes out to supply the place made vacant by the death of the late Mr. Alward. Dr. Johnson, who will take charge of the High School on Factory Island. Rev. Mr. Roberts, Judge Benedict, Mrs. Oliver and Mr. Savage, colonists, and Simon Peter, a native African and a convert to Christianity, all of whom have been on a visit to this country.

The Saluda has been repaired by her present owners at great expense, and will doubtless have a quick passage.

LINES ON THE DEPARTURE OF THE SALUDA.

I.

Tиот art gone on thy mission of faith and love,
To climes far o'er the sea,
And may He who sitteth enthroned above,
Whose spirit doth over the waters move,
In mercy remember thee.

II.

In safety, amid perils of wind and wave,
May He guide thee on thy path,
Unheeding the elements bounding rave,
Since protected by Him who alone can save,
From the storm-god's fiercest wrath.

III.

For good to the souls of men, we speed

This barque o'er the ocean's foam,
Chartered by freemen, in the time of need,
The scattered flocks with the crumbs to feed,
In the heathen's darkened home.

IV.

O! is there a spot on earth's wide bound,
Or the seas unceasing tide,
Where the Gospel trumpet in vain will sound
Its echoings through the deep prefound,
Or its precepts may not abide?

v.

Ah no! for the Saviour of all hath said

That the weary in sense and soul,

The man of sin, whose bondage is made

By snares which the enemy slyly hath laid,

In faith may still be made whole!

VI.

Then bear thee bravely the waters o'er,

To thy destined port, afar—

Heralding peace and joy to more

Than have ever yet heard of our distant shore,

Or seen its bannered star.

VII.

America hails her sister land,
As earlier blest than she,
For long, long since on thy favored strand,
Dark Afric! stood a holy band
Of martyrs, bold and free.

VIII.

And though the cloud is on thy brow,
And gone thine ancient fame,
The day is coming when even thou,
With all thy idol things shalt bow,
To the Redeemer's name.

IX.

For is it not written in sacred lore,

"The world is given to thee,"

The "heathen heritage," yea more,

The "uttermost parts" from shore to shore,

Thy chosen place shall be?

WE commend the following article to the serious consideration of all those who have been sceptical about the policy of Colonization, and the character and influence of the colonists in Africa. It is testimony unsought by us. It comes from a high and responsible source, and it ought to be received as the truth. In view of such statements we are astonished that any body can have the effrontery to charge our colonists with a participation in the accursed slave trade. And yet it is done, and that too by men who must have seen the article inserted below. In a former article, it may be remembered, we quoted the statements of some of the most responsible English Journals, in which they asserted that the colonists were by no means clear of this deadly sin. We trust they will have the frankness to take back their declarations, and accord equal justice to whom it is due.

From late English papers, received from the European Correspondent of the National Intelligencer.

LIBERIA AND THE SLAVE TRADE.—A correspondent of the *Morning Chronicle* has forwarded to the editor of that paper the following extracts from official documents, "for the purpose of extending more ample justice to the labors of the good men who have founded the interesting free settlement of Liberia."

Capt. Arabin, R. N., in one of his despatches, says, "nothing has been done more to suppress the slave trade in this quarter than the constant intercourse of the natives with these industrious colonists." And again: "their character is exceedingly correct and moral; their minds strongly impressed with religious feelings; their manners serious and decorous; and their domestic habits remarkably neat and comfortable. Wherever the influence of Liberia extends, the slave trade has been abandoned by the natives, and the peaceful pursuits of legitimate commerce established in its place."

Mr. Stoll, R. N., in a letter to Dr. Hodgkin, dated July 17, 1840, says: "it promises to be the only successful institution of the sort on the coast of Africa, keeping in mind its objects, namely, that of raising the African slave into a free man; preparing him for the exercise of civil liberty, in its various branches, from the Governor to the laborer; the extinction of the slave trade; and last, though not least, the religious and moral improvement of Africa at large;" and adds, "the surrounding Africans are aware of the nature of the Colony, taking refuge, when persecuted by the few neighboring slave traders. The remnants of a tribe have lately fled to and settled in the Colony, on land granted them. Between my two visits, a lapse of only a few days, four or five slaves sought refuge from their master, who was about to sell or had sold them to the only factory on that part of the coast. The native chiefs in the neighborhood have that respect for the colonists, that they have made treaties for the abolition of the slave trade, as also constituted the Governor judge in dis-

few days previous to my visit; one chief submitted to the arbitration of Gov. Buchanan, though contrary to his own idea of right and justice, and paid the fine imposed upon him."

Capt. Irving, in a letter to Dr. Hodgkin, August 3, 1840, observes: "You ask me if they aid in the slave trade: I answer you no! and I am sure the colonists would feel much hurt should they know such a question could possibly arise in England. In my humble opinion it is the best and safest plan for the extinction of the slave trade and the civilization of Africa, for it is a well kown fact that wherever their flag flies it is an eyesore to slave dealers."

And Capt Herbert writes to the same philanthropic gentlemen: "with regard to the present state of slave taking in the Colony of Liberia, I have never known one instance of a slave being owned or disposed of by a colonist. On the contrary I have known them to render great facility to our cruisers there in taking those vessels employed in that nefarious traffic, by obtaining from the natives of the different slave factories information of the time these vessels would sail with their cargoes. I could name various instances of their aversion to slavery which have come under my own eyes; I will here name one of late date. In November last, while I was trading at Edina, there came into the Cove two Spanish vessels, evidently slavers, seeking for British arms, amunition and clothes, for which they would have given specie; yet there was not one colonist to be found who would trade with them, notwithstanding the extensive profit which could have been made."

Trusting that these authorities will establish the just claims of these interesting people to our confidence and regard, relieve Colonizationists from the obloquy so unjustly heaped upon them by the anti-slavery party, and prevent the unhappy alienation so likely to be engendered between the sister countries by their attacks,

I am yours, &c.,

JOHN BULL.

MARINE LIST-PORT OF MONROVIA.

ARRIVALS.

- May 22, Colonial sloop Randolph, Fletcher master, from Junk.
- " 24, Colonial sloop Hope, Barbour master, from the leeward.
 - " 27, Colonial sloop Nathan Bangs, Smith master, from the leeward.
 - " 28, United States schooner Grampus, J. S. Paine Lieutenant commanding, from Cape Palmas.
 - " 31, Spanish schooner Leon, Antonio master, from the leeward.
- June 6, British brig Tom Cod, Tyler master, from Bristol.
 - " 9, American brig Atalanta, Lawlin master, from Philadelphia, via. Sierra Leone.
 - " 10, United States schooner Grampus, Lieut. J. S. Paine commanding, from the leeward—passenger, his Excellency the Governor.
 - " 10, Colonial schooner Providence, Carroll master, from the leeward.
 - " 11, American brigantine Virginia Trader, Brown master, from Philadelphia.
 - " 17, British brig Gipsey, Harfield master, from the leeward—passengers, Mr. Theodore Canot and Mr. Curl.
 - "18, British schooner Hirondale, —— master, from the leeward; British schooner Guineaman, Jackson master, from the leeward; American brig Trafalgar, —— master, from the leeward.
